INTELLECTUAL PROPERTY, COPYRIGHT AND MORAL RIGHTS

Respect the intellectual property, copyright and moral rights of all authors and creators. Carefully consider whether to post content that you have personally created or have permission to use and if you do, ensure you have properly attributed that content to the creator, which can include co-authors. Architects' drawings and designs generally attract protection as an 'artistic work' under the Australian Copyright Act.

When posting content, please indicate the limitations on whether and how that content can be used, copied, printed, modified, adapted, distributed, or republished. If you would like to re-use (or do any other thing with) any material posted by another user, please contact the owner of the material directly to request their permission.

Do not post any information or material protected by copyright, or that can be the subject of copyright ('Copyright Material') without the permission of the copyright owner. When you post Copyright Material, you warrant and represent that you either: own the copyright with respect to such material or that you have received permission from the copyright owner. In addition, by posting Copyright Material you grant ArchiTeam and all users of the Forum non-transferable and non-exclusive right (a license) to display, copy, publish, distribute, transmit, print, and reasonably use that Copyright Material, but not for any commercial purpose.

ANTI-COMPETITIVE BEHAVIOUR AND OTHER LAWS

Do not post messages, comments, or information if they encourage or facilitate Members to arrive at any agreement or understanding that either expressly or impliedly leads to price fixing, cartel conduct, a boycott of another's business, exclusive dealing or other conduct intended or that amounts to illegally restrict free trade. Conduct that encourages or facilitates any formal or informal agreement or understanding about the following subjects are inappropriate: prices, discounts, or terms or conditions of sale; salaries; profits, profit margins, or cost data; market shares, sales territories, or markets; allocation of customers or territories; or selection, rejection, or termination of customers or suppliers.
